

LEAF Academy at Presidio Hill School

Leadership, Ecology, and Action Fellowship

Creating Leaders for Sustainability in San Francisco Schools

Are you passionate about making a difference?

Join the LEAF fellowship for adventures and projects that will change your relationship with the planet! Together we explore the systems that make ecologies work well, and bring those ideas into our own communities. Create plans with your team to change the ways your school community impacts its environment. Be a leader for the change you want to see in your world!

As a LEAF Leader, you will:

- Share your ideas with other student leaders and mentors during the school year to prepare a plan for your community.
- Join us for two weeks of planning, learning and adventure in our LEAF Academy summer session!
- Educate others about environmental issues in your community.
- Help your school community move towards environmental sustainability, with the help of mentors and team members.
- Help the next LEAF leaders by sharing your experience!

The Program requires a one-year commitment to the team meetings, and attendance at the summer session.

2010 L.E.A.F. Summer Session: **July 19th-July 30th**

Cost of Program: All accepted students receive a full scholarship for 2010

Your application will include an Essay, telling us about your interests.

Application Deadline Extended: **May 7th, 2010**

Choose one of these topics for a 1-2 page Essay

- 1) Why would you be a great LEAF leader?
- 2) What are you passionate about changing in the world?
- 3) Describe a time when you met a challenge with success.
- 4) Describe a sustainable relationship with the Earth.
- 5) Why is it important to learn about ecology?
